Food, Health, & Safety Committee

Minutes of April 10, 2018

Present: Todd Badham, Libby Baldwin, Terry Halvorson, Deborah Hope, Julia Lin, Collin Noble, and Elena Staver

The meeting was called to order by FHS Chairperson Elena Staver, and the following reports were given:

Libby Baldwin/CHWS:
- Libby reported that the wait for counseling is now 5 days.
- The search for the new Director of CHWS has been closed due to the small pool of applicants. One candidate will be cultivated, and the search will re-open in the fall. One candidate had licensing issues due to their international work. CHWS is figuring out an interim person. Libby reported that they hope the new dean will be able to draw a strong candidate, but currently the committee did not wish to settle.
- Donn met with ASUPS committee to discuss having a CHWS liaison next year.
  - Question—Who would be the contact for future meetings? Libby responded that Chris Edwards would be the contact.
  - Question—Is the new position a Senate position? Libby responded that the original thought was to have the person from the Executive branch, but now feel CHWS liaison is better as a separate position.
- Vending Machine—Libby has researched the requirements for selling Plan B and reported that ASUPS needs to be the shopkeeper. Libby asked for a meeting to support the process, and requested Qiara (because of Expressions Funds), Jenna, and Sam to be on this committee.

Terry Halvorson/Dining Services
- Terry reported that DCS has hired new Executive Chef Michael Snoke, who will start on April 30. He was recently with Google, and is the mastermind behind the Churro Dog. A question was raised regarding his interest in local foods, and Terry responded that Michael is very interested in continuing to seek local sources.
- New mugs and bottles are available.
- Starting April 16 there will be a new $.10 fee on paper plates and cups.
- DCS is trying a new compost system in the cellar and looking for more ways to be sustainable.
- Text and Tell: Comments were received regarding the compostable straws in the cellar, and compliments for the tofu rolls. A request was received to have almond and other milks in the milk machine.
- Terry reported that Hi-Ball drinks are back.
Todd Badham/Security:

- Todd reported that there were 2 fire alarms due to marijuana.
- 1 bike was stolen from Steward Hall, 1 car broken into in the Field House lot.
- On Friday the 13th an argument between a m/f non-student couple turned physical, police were called and the man was arrested.
- Last Fri at midnight a drunk driver drove up the plaza after going over the curb, was caught and arrested. Open alcohol was discovered in the car.
- Security is busy getting ready for graduation.
- Bike Swap is April 28.
- A question was raised regarding why graduation is a busy time for Security, and Todd responded that there is a lot of logistical support between the end of school and start of summer conferences, along with key returns.

The meeting was adjourned by Chairperson Elena Staver.

The next Food, Health, and Safety Meeting will be in the fall.

Respectfully submitted by
Deborah Hope, Office Manager
